

When the hay is ready to bale and you need to keep moving, you want Bridon twine in your baler. Pick the quality level of twine you need for how your bales are handled and stored. Both the MAX and the BlackGold product lines will help you get maximum performance from your baler. That's our promise to you: **better baling, better bales.**

BridonUSA

The only name you need for quality baler twine and netwrap

Your BridonUSA dealer is your 1-stop location for all your baling needs. Bridon baler twine has been the quality leader for more than 40 years. And Bridon also brings you world-class netwrap, designed for North American balers and North American conditions.
